Sprint Retro Notes
Team: RAMSS

Sprint: 4
Date: 16/10/2022

Attended: *Rishiktrishwa Rao, Angeline Zhang, Mark Huang, Sahibjeet Singh, Shanelle Nicole Morais*
Scrum Master: *Shanelle Nicole Morais*
Product Owner: *Emad*
Development team: *Rishiktrishwa Rao, Angeline Zhang, Mark Huang, Sahibjeet Singh, Shanelle Nicole Morais*

1. Things That Went Well

1. Functional landing page for login and registration that takes you to the patient portal

2. Being able to select dates for appointments and book appointment

3. Prescription forms and views UI implemented

4. Got most endpoints completed

5. Unit and flutter testing passed

2. Things That Could Have Gone Better

1. More user stories could have been completed

2. Code merging could have gone smoother

3. Things That Surprised Us

1. We didn't complete any user stories

4. Lessons Learned

1. Completing a fully functional application takes a long time and a lot of issues are encountered along the way.

2. Merging code can be difficult

4. Make more frequent commits on github

5. Final Thoughts

Things to Keep:

       -Keeping up the pace of weekly meetings

Things to Change:

       Improve pace of work

       Make frequent commits on github

       Communicate actively within the team
